

Publications and Scientific Contributions

Srihari Jaganathan

Selected body of work spanning forecasting, decision science, real-world evidence, patient persistence, outcomes research, neurology, rare disease, and open-source analytics software.

Forecasting, Decision Science & Analytics Methodology

- [1] Z. Wang, A. Crawford, K. Lee, L. Lu, and **Jaganathan, S.** “reslife: Residual lifetime analysis tool in r”. In: *arXiv preprint arXiv:2308.07410* (2023).
- [2] **Jaganathan, S.** and P. Prakash. “A combination-based forecasting method for the M4-competition”. In: *International Journal of Forecasting* 36.1 (2020), pp. 98–104.
- [3] **Jaganathan, S.** and K. Lee. “Simple Probability Models for Predicting Aggregate or Sparse Data: An Empirical Analysis of Projecting Patient Persistency”. In: *PMSA Journal* (2019). Srihari Jaganathan, Head of Advanced Analytics, UCB Inc.; Ka Lok Lee, Senior Associate Director, Advanced Analytics and Consulting Services, IQVIA. URL: <https://pmsa.org/resources/pmsa-journal>.
- [4] **Jaganathan, S.**, J. Erinjeri, and J. Ker. “Fuzzy analytic hierarchy process based group decision support system to select and evaluate new manufacturing technologies”. In: *The International Journal of Advanced Manufacturing Technology* 32.11 (2007), pp. 1253–1262.

Real-World Evidence & Outcomes Research

Gastroenterology / Crohn’s Disease

- [1] D. Wolf, **S. Jaganathan**, C. Burudpakdee, S. Chakravarti, A. Seetasith, R. Low, G. Edward, M. Yassine, and D. A. Schwartz. “Adherence rates and health care costs in Crohn’s disease patients receiving certolizumab pegol with and without home health nurse assistance: Results from a retrospective analysis of patient claims and home health nurse data”. In: *Patient Preference and Adherence* 12 (2018), pp. 869–878. DOI: [10.2147/PPA.S160472](https://doi.org/10.2147/PPA.S160472).
- [2] D. C. Wolf, **S. Jaganathan**, C. Burudpakdee, A. Seetasith, M. Yassine, J. Gucky, R. Low, and D. Schwartz. “Healthcare costs of patients with Crohn’s disease receiving certolizumab pegol with and without home health nurse assistance: results from a retrospective analysis of patient claims data”. In: *AMCP Managed Care and Specialty Pharmacy Annual Meeting 2017 (AMCP)*. Conference poster presented Mar 27–30, 2017. Denver, USA, 2017, K6.
- [3] D. T. Rubin, S. Kane, **S. Jaganathan**, L. Palmer, and A. Cyhaniuk. “Real-world anti-TNF dose escalation in patients with Crohn’s disease”. In: *American Journal of Pharmacy Benefits* 7 (2015), e135–e140. ISSN: 1945-4841.

- [4] S. V. Kane, **S. Jaganathan**, A. V. Bedenbaugh, L. Palmer, and D. A. Schwartz. “Anti tumor necrosis factor agents reduce corticosteroid use compared with azathioprine in patients with Crohn’s disease”. In: *Current Medical Research & Opinion* 30.9 (2014). Full paper, pp. 1821–1826. ISSN: 1473-4877. DOI: [10.1185/03007995.2014.942060](https://doi.org/10.1185/03007995.2014.942060).
- [5] S. Jenkins, F. Cox, D. Jacobstein, A. Cyhaniuk, and **Jaganathan, S.** “Cost analysis of certolizumab pegol and infliximab therapy at 1 and 2 years in patients with Crohn’s disease”. In: *25th Annual Meeting and Expo of the Academy of Managed Care Pharmacy (AMCP)*. Poster presentation, April 03–05, 2013. San Diego, CA, USA, 2013.
- [6] S. Kane, S. Jenkins, **S. Jaganathan**, and D. A. Schwartz. “Incidence of surgery and associated costs at 1 and 2 years in patients newly initiated to a subcutaneous anti-TNF for the treatment of Crohn’s disease”. In: *Digestive Disease Week (DDW) 2013*. Conference poster presented May 18–21, 2013. Orlando, USA, 2013, Su1212.
- [7] S. V. Kane, S. Jenkins, **S. Jaganathan**, F. Cox, and D. A. Schwartz. “Analysis of a US patient claims database to assess appropriate initial dosing in patients newly prescribed certolizumab pegol for Crohn’s disease”. In: *Digestive Disease Week (DDW) 2013*. Conference poster presented May 18–21, 2013. Orlando, USA, 2013, Su1210.
- [8] S. Kane, D. Schwartz, **S. Jaganathan**, and S. Jenkins. “Corticosteroid avoidance in patients with Crohn’s disease who are newly initiated to therapy with an anti-TNF versus azathioprine”. In: *77th Annual Scientific Meeting of the American College of Gastroenterology (ACG)*. Conference poster presented Oct 19–24, 2012. Las Vegas, USA, 2012, p. 1605.
- [9] S. N. Kane, D. A. Schwartz, **S. Jaganathan**, S. Jenkins, and S. Horst. “Corticosteroid elimination in patients with Crohn’s disease who are newly initiated to therapy with an anti-TNF or azathioprine”. In: *20th United European Gastroenterology Week (UEGW)*. Conference abstract presented Oct 20–24, 2012. Appeared in *Gut*, 2012;61(Suppl 3):A3. Amsterdam, The Netherlands, 2012, OP014.

Rheumatology

- [1] A. Near, **S. Jaganathan**, C. Song, E. Lee, and R. Low. “Impact of the CIMplicity® Patient Support Program on Persistence to Certolizumab Pegol Treatment: A Retrospective Cohort Analysis of Claims Data in the United States”. In: *39th Congress of Clinical Rheumatology (CCR) East*. Poster presentation, May 04–07, 2023. Destin, USA, 2023.
- [2] L. R. Harrold, H. Litman, K. C. Saunders, K. J. Dandreo, B. Gershenson, J. D. Greenberg, R. Low, J. Stark, R. Suruki, **Jaganathan, S.**, J. M. Kremer, and M. Yassine. “One-year risk of serious infection in patients treated with certolizumab pegol as compared with other TNF inhibitors in a real-world setting: Data from a national U.S. rheumatoid arthritis registry”. In: *Arthritis Research & Therapy* 20.1 (2018). Full paper, p. 2. DOI: [10.1186/s13075-017-1496-5](https://doi.org/10.1186/s13075-017-1496-5).
- [3] S. T. Corona, R. Suruki, **S. Jaganathan**, M. Yassine, L. R. Harrold, H. J. Litman, K. C. Saunders, K. J. Dandreo, B. Gershenson, J. D. Greenberg, R. Low, J. Stark, R. Suruki, and M. Yassine. “The real world comparative safety of certolizumab pegol (CZP) as compared to other TNFi in a national US cohort”. In: *80th Annual Meeting of the American College of Rheumatology (ACR) and 51st Annual Meeting of the Association of Rheumatology Health Professionals (ARHP)*. Poster presentation, November 11–15, 2016. Washington, DC, USA, 2016, p. 2588.

- [4] L. R. Harrold, H. J. Litman, K. C. Saunders, K. J. Dandreo, B. Gherson, J. D. Greenberg, R. Low, J. Stark, R. Suruki, **S. Jaganathan**, and M. Yassine. “The real world comparative safety of certolizumab pegol (CZP) as compared to other TNFi in a national US cohort”. In: *80th Annual Meeting of American College of Rheumatology (ACR) and 51st Annual Meeting of Association of Rheumatology Health Professionals (ARHP)*. Conference abstract presented Nov 11–15, 2016. Appeared in *Arthritis Rheum*, 2016;68(S10). Washington, DC, USA, 2016, p. 2588.

Neurology & Rare Disease Outcomes Research

- [1] W. T. Kerr, D. Ems, **Jaganathan, S.**, R. Sederman, C. Chen, S. Wu, E. Tselenti, A. Lothe, and M. Scott Perry. “Healthcare resource utilization and persistence in children and adults with Dravet syndrome receiving fenfluramine: a retrospective analysis using United States claims data”. In: *Seizure: European Journal of Epilepsy* (2026). ISSN: 1059-1311. DOI: <https://doi.org/10.1016/j.seizure.2026.06.008>. URL: <https://www.sciencedirect.com/science/article/pii/S1059131126001809>.
- [2] D. Ems, **S. Jaganathan**, R. Sederman, C. Chen, A. Lothe, and S. Wu. “Healthcare Utilization and Persistence in Patients With Dravet Syndrome: A Retrospective Analysis Using US Claims Data”. In: *15th European Epilepsy Congress (EEC)*. Conference poster presented Sep 07–11, 2024. Rome, Italy, 2024, p. 277.
- [3] D. Ems, **S. Jaganathan**, R. Sederman, C. Chen, and S. Wu. “Healthcare Utilization and Persistence in Patients with Dravet Syndrome: A Retrospective Analysis Using U.S. Claims Data”. In: *76th Annual Meeting of the American Academy of Neurology (AAN)*. Conference poster presented Apr 13–18, 2024. Abstract/Poster: P1-003. Denver, USA, 2024.
- [4] **S. Jaganathan**, D. Ems, R. Sederman, C. Chen, and S. Wu. “A 12-Month Persistence Analysis of Fenfluramine, Valproate, and Levetiracetam in Individuals with Dravet Syndrome: A Comparison Using US Claims Data”. In: *77th Annual Meeting of American Epilepsy Society (AES)*. Conference poster presented Dec 01–05, 2023. Orlando, USA, 2023, p. 3490.
- [5] **S. Jaganathan**, D. Ems, R. Sederman, C. Chen, and S. Wu. “Outcomes Among Individuals with Dravet Syndrome Using Fenfluramine: A Retrospective Analysis Using US Claims Data”. In: *52nd Annual Child Neurology Society Meeting (CNS)*. Conference poster presented Oct 4–7, 2023. Vancouver, Canada, 2023, p. 314.

Open Source Analytics Software

foretell Forecasting and persistency analytics toolkit implementing probabilistic models for patient persistence, survival projections, and forecasting applications.

reslife Residual lifetime analysis toolkit for estimating treatment duration, patient persistence, and survival outcomes using real-world data.
